Review of the MC&I(Natural Forest) / Semakan Semula MC&I(Hutan Asli): First Public Comment (2016)

First Public Comments on MC&I

1) General comments: It is necessary to strengthen aspects of research and development (R&D) in the criteria and indicators to ensure scientific and technical information are been used significantly in supporting the forest management.

2) Specific Comments:

Principle..	Proposal for amendment	Reasons for proposed amendment
6: Environment Impact	To include: d) Composition of timber species before and harvesting. Verifier: Species composition information/data (from post-Felling inventory)	To maintain the forest integrity of composition after the area been harvested.
7: Management Plan	To include: 7.1 j) Necessary research to be conducted for the FMU. 7.1 k) Inclusion of non-forest produce especially on the aspects of eco-tourism and payment for ecosystem services (PES). Verifier: Provide specific chapter in the Forest Management Plan on research & development (R&D), eco-tourism and PES.	R&D is critical to support improvement of forest management in the respective/specific FMU.
7: Management Plan	Indicator 7.2.2 Forest managers shall be aware of new scientific and technical information pertinent to the management of the area to be certified by referring to the respective research institutions. Verifier: Records of communication and inputs from the respective research institutions on the new scientific and technical information.	To ensure consultation/communication with the research institutions are being conducted in regular basis.
